CacheTide | double-column main result and column-width details

SIMULATED DATA - LAYOUT ONLY; NOT EXPERIMENTAL EVIDENCE

E1 (simulated). Four configuration quality versus complete-cost frontiers.

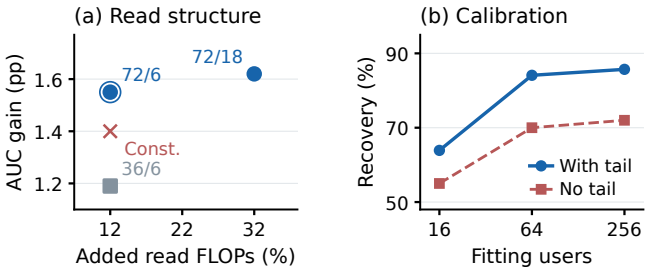

E3 (simulated). Default-point recovery with per-release quality gaps and costs.

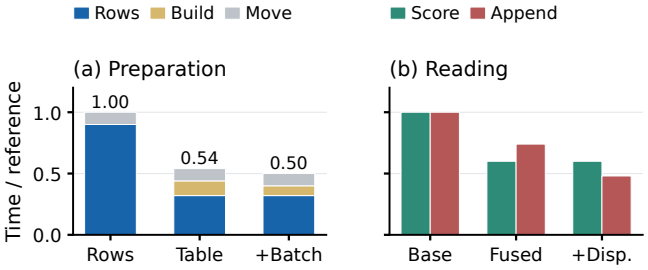

Figure sizes match the intended column span. Manuscript: paper/main.pdf.

CacheTide | double-column main result and column-width details

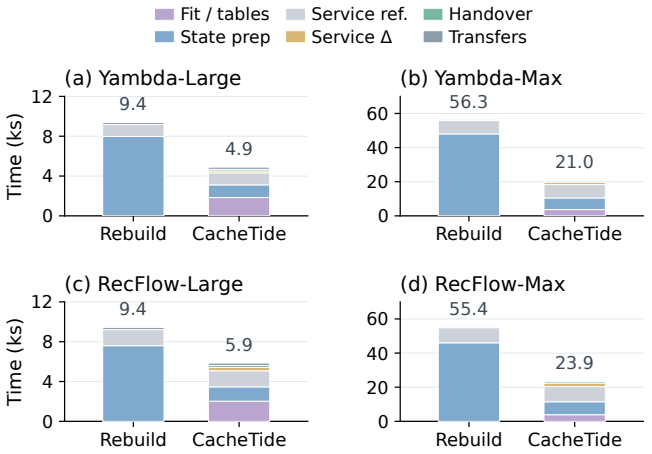

SIMULATED DATA - LAYOUT ONLY; NOT EXPERIMENTAL EVIDENCE

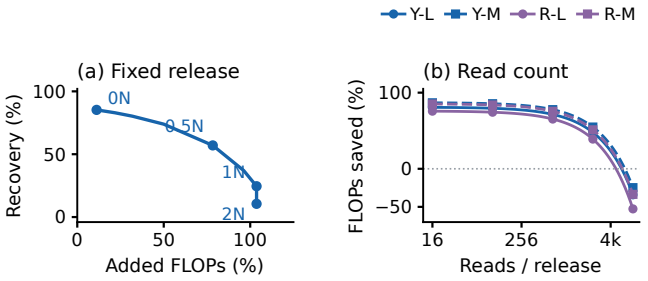

E8 (simulated). Read structure and calibration mechanisms.

E6 (simulated). Preparation reuse and fused-reading optimizations.

E2 (simulated). Complete processing-time attribution on matched resources.

E9 (simulated). Fixed-release continuation and read-count cost boundary.

Figure sizes match the intended column span. Manuscript: paper/main.pdf.
